

Wires $\leftarrow | \approx | \rightarrow$ Fires

Q: What is the only way to know if your wiring is safe?

A: Get it inspected by a qualified professional.

An Adams electrical inspection costs \$150 +GST and takes 1-2 hours.

Following the inspection, you will receive a full report on the condition of the property and the individual rooms.

An inspection is an electrical warrant of fitness and should not be confused with a certificate of compliance, which is required when new electrical work is carried out on a property.

To arrange your inspection
